EIGHT GOOD REASONS TO ADOPT A COMPLETE STREETS POLICY

1. Provide an equitable transportation system that serves all residents.
2. Reduce rates of injury and death from traffic crashes and improve road safety for all users.
3. Shift transportation investments to safer, better-functioning streets, gradually creating Complete Streets networks and saving money by reducing the need for costly retrofits.
4. Provide more transportation options and reduce traffic congestion, increasing transportation network capacity.
5. Improve air quality and reduce localized flooding by installing green stormwater infrastructure, street trees, and other vegetation.
6. Reduce rates of asthma and other respiratory issues by improving air quality through reduced traffic congestion and emissions.
7. Encourage walking and bicycling, healthy habits that reduce rates of chronic diseases such as diabetes, heart disease, cancer and stroke through increased physical activity.
8. Promote health equity by providing people who typically face significant barriers to better health with more opportunities to live healthier lives.
