

WHY NJ'S E-BIKE LAW MUST BE AMENDED:

- **IT MISSES THE REAL ISSUE:** reckless use of high-speed e-motorcycles.
- **IT CREATES BARRIERS** for disabled riders who cannot obtain a driver's license.
- **IT BURDENS LOW-INCOME** residents who rely on low-speed e-bicycles.
- **IT CREATES CONFUSION,** fear, and paralysis for riders and small businesses.

THE FIX:

- 1 Treat ≤ 20 MPH as bicycles
- 2 Regulate > 20 MPH devices

POLICY SHOULD BE THOUGHTFUL, NOT RUSHED.
