

WHY THE NJ E-BIKE LAW MUST BE AMENDED:

- **IT MISSES THE REAL ISSUE:** reckless use of high-speed e-motos.
- **IT CREATES BARRIERS** for disabled riders who cannot obtain a driver's license.
- **IT BURDENS LOW-INCOME** residents who rely on low-speed e-bikes.
- **IT CREATES CONFUSION,** fear, and paralysis for riders and small businesses.

THE FIX:

Treat ≤ 20 MPH as bicycles

Regulate > 20 MPH devices

**POLICY SHOULD BE
THOUGHTFUL, NOT RUSHED.**
