

E-Bike Rider/Parents - NEED TO KNOWS

WEDNESDAY, AUGUST 26th, 8-9 PM
FREE & Open to the Public

Facilitated by Paul Mickiewicz, NJBWC Program Manager and Certified Cycling Instructor

Greater speeds require faster mental processing, better bike handling skills and come with greater responsibility. Legal definitions have changed but smart cycling strategies still apply. Riders need to learn to use the roads safely and responsibly by understanding the rules of the road for predictability and situational awareness for crash avoidance. We will review the training and provide additional resources to consider.

Content Includes:

- Understanding unique e-bike characteristics
- Choosing the right bike and sales considerations
- Getting along. E-bike etiquette in shared space
- Battery care and charging best practices
- Traffic rules and regulations, signs and signals
- Understanding crashes. Causes and avoidance
- Split seconds matter! Speed and stopping distance.
